Experience

UX Designer / Internship

SAP Canada Inc. - Vancouver, BC (hybrid) | May 2025 - May 2026

- Aligned UX patterns across three enterprise data products, creating scalable Figma components, usability guidelines, accessibility guidance, and developer-ready specs for patterns such as Diagrams and Side Panels.
- Partnered with product designers, developers, PMs, and the central design system team to audit legacy patterns, present design proposals, and resolve cross-product requirements.
- Co-led a hands-on Claude + MCP workshop for UX and UA designers, creating internal guides and training resources that helped position our team as an early example for AI-assisted design practices across SAP's global design organization.
- Supported post-MVP feature design for a metrics experience, contributing to user flows, prototyping, and floorplan exploration.

UX Designer / Co-op

Nokia - Ottawa, ON (remote) | January 2024 - December 2024

- Audited Nokia design system components, resolving Figma usability issues and supporting WCAG compliance.
- Researched leading AI tools to define UX patterns and guidelines for internal AI products.
- Managed the icon library and related JIRA tickets, overseeing requests for new icons and updates.
- Actively participated in weekly standups, presenting progress updates to enhance team communication and gather design feedback.

Graphic Designer

Onikon Creative Inc. - Vancouver, BC (on site) | May 2021 - August 2021

- Designed marketing materials for realtor clients using Adobe Illustrator and Photoshop, including digital branding assets and brochures for property sales.

Member Service Representative

Sharons Credit Union - Vancouver, BC (on site) | May 2018 - August 2022

- Delivered excellent customer service in a high-volume banking environment, accurately processing a range of financial transactions, including deposits, withdrawals, and account management.

Academic Projects

Simplii Financial Design Intervention | October 2023 - November 2023

- Identified a problem area on Simplii Financial's website through research and data analysis, and developed an interactive Figma prototype that introduced a new user experience aimed at enhancing financial confidence and security for the company's target audience.

SSFB Microsite UX/UI | September 2023 - October 2023

- Conceptualized and designed a New Wave design inspired microsite for an Amsterdam-based music festival focusing on visual branding and balancing functionality and emotional design.
